

**Kowloon Park Fitness Trail Tender \_ Q&A ( after tender briefing session)**

	Question	JCDISI's Response
1	<p>Refer to the attached "Schedule and Offer" please kindly advise if we have to include fee for fitness facilities products at this tender submission stage, thanks.</p>	<p>Please note that it is not necessary to include fee for fitness facilities products at this stage.</p>
2	<p>May I refer to paras. 14 and 17 of the tender specifications document, regarding the requirement on the design of the facilities and its actual production. Para. 14 set out that the actual production of the technology and the product is not necessary, whilst para. 17 indicates the qualification of the consultancy team that has to be 'qualified' in technology application.</p> <p>Grateful for indication on whether the requirement of IoT expertise is a must for the consultancy team or could be optional at this design stage as the IT application of the facilities can be further developed at a later stage after the consultancy design stage.</p>	<p>Thank you for your interest in our Design Consultancy Study.</p> <p>Requirement of IoT knowledge in the team is optional at this stage. You just need to demonstrate that you have the bandwidth to understand and achieve the objectives of this R+D led action research and project. Nonetheless, you should tell us your initial thoughts on the sort of IoT and Technology that you would like to integrate in the proposal to promote IG play, wellness management and any other objectives identified in the tender and highlight how you intend to seek these specialist input to develop your proposed scheme.</p>
3	<p>As mentioned in the briefing, we would like to request the CAD file of Kowloon Park.</p> <p>We would also like to check if the documents mentioned in the Tender Briefing para. 19 (p.5) is available for sharing at this stage?</p>	<p>Please see this for the link of tender briefing ppt and the CAD files:  <a href="https://drive.google.com/drive/folders/1r8qcOSiJ86zfxkPE6B01QjEGnGoUfkug?usp=sharing">https://drive.google.com/drive/folders/1r8qcOSiJ86zfxkPE6B01QjEGnGoUfkug?usp=sharing</a></p> <p>As item ii and iv is not in the public domain, we are not at liberty to share it with tenderers at this stage. For item i and iii please refer to the Appendix B of the tender document and the useful resources page in tender briefing ppt pg 40.</p>

4	<p>Regarding para. 19 of the tender specification, wonder if the information (i) to (iv) of the Panel's observations and suggestions, LCSD's Tech Unit's comments, etc. are made available for our information at this stage, or only after the tender is granted to the consultancy team. If for the earlier, possibly to send them to us for information? Otherwise if it is the latter, no worries. Thanks a lot.</p>	<p>As item ii and iv is not in the public domain, we are not at liberty to share it with tenderers at this stage. For item i and iii please refer to the Appendix B of the tender document and the useful resources page in tender briefing ppt pg 40.</p>
5	<p>Please see our request for the below documents for our reference:</p> <ul style="list-style-type: none"> <li>(i) Intergenerational Play Space Panel's observations and suggestions on how to transform the Kowloon Park Fitness Trail based on their area of expertise</li> <li>(ii) LCSD Technical Unit's general comments on playground equipment, safety matting, fitness and elderly fitness equipment with relevant standards, guidelines and requirements</li> <li>(iii) ArchSD Elderly-friendly City Design Guide</li> <li>(iv) ArchSD Guide for Design of Children Play Space</li> </ul>	<p>As item ii and iv is not in the public domain, we are not at liberty to share it with tenderers at this stage. For item i and iii please refer to the Appendix B of the tender document and the useful resources page in tender briefing ppt pg 40.</p>
6	<p>Do the tenderers need to provide a quote to deliver their proposed works?</p>	<p>The tenderers do not need to provide that for the tender assessment. They only need to provide a quote for the Proof of Concept Study and the associated deliverables as set out in the tender.</p>
