A Park For Yau Ma Tei and You

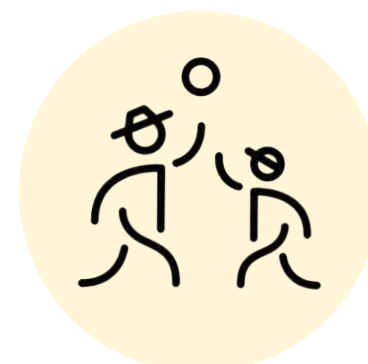

Design Statement 設計理念

plaYspace, with Y stands for - Yung Shue, Yau Ma Tei, You and I. We hope to instill the disappearing icon, Yung Shue Tau, into the park. Not only it is special to the site, but it also contains everyone of YOU in the community by intergeneration and inclusive consideration. plaYspace hopes to fulfil the need of the aging population and the surrounding context. By using age-neutral equipment, there are no more differentiation between generations, but all are ONE.

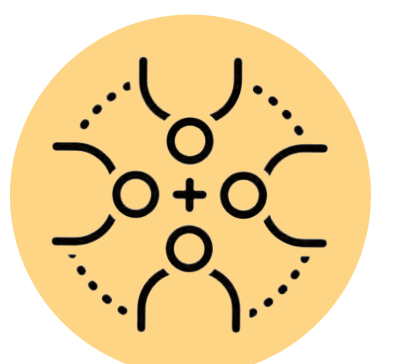

樂榕融 - 座落於油麻地，公園以榕樹頭為主體，貫穿整個公園的遊樂設施。榕樹頭對油麻地來說，除了是一個特別的回憶外，它更是一個「包容」所有人的地方。我們希望透過跨代共融的設計方案和不分年齡的設施，滿足這個正在老化的社區和周圍的人。在樂榕融裡，不再區分年紀，大家一起共同享受。

A unique park in Yau Ma Tei
一個在油麻地的特色公園

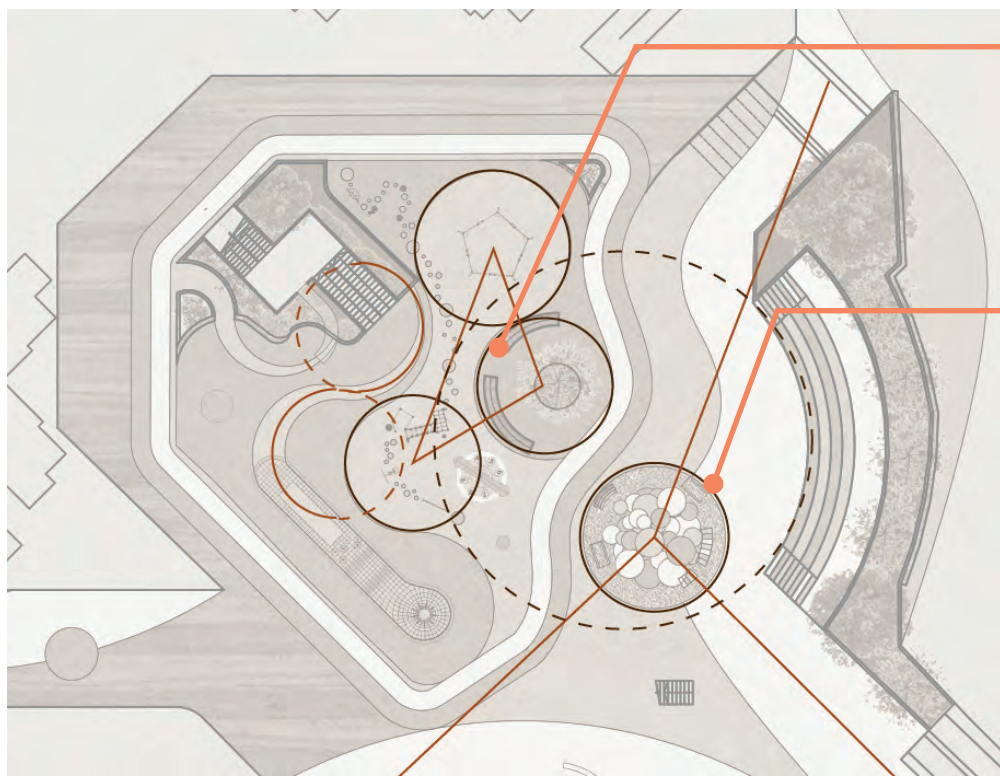

Intergeneration and inclusive
跨代共融的設計方案

Design for everyone of You
為所有人而設

Design Concept 設計概念

(1)
Cross-zoning design to
reduce boundary and create a
more harmonious atmosphere

跨區域設計以減少界限和營
造更和諧氣氛

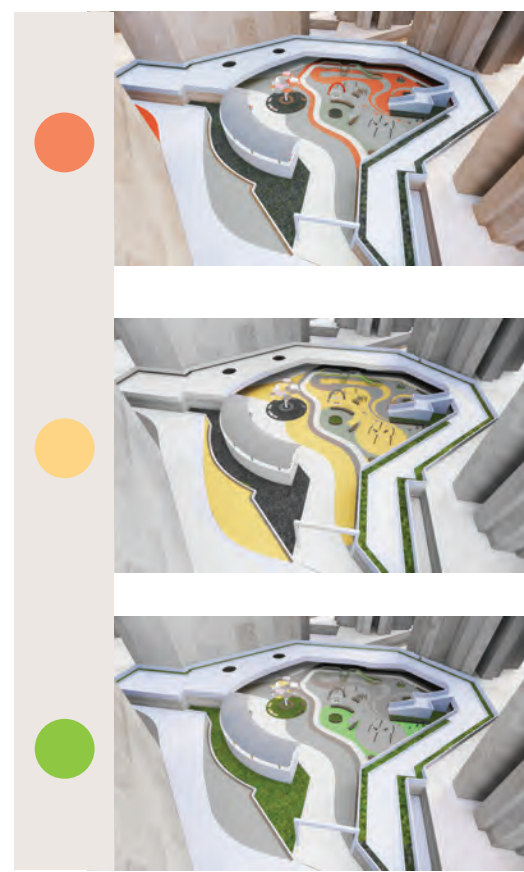

(2)
The park feature, Life Tree, is
easy accessed and centered

公園主題以「榕樹」為中心，
容易通往

(3)
Organic forms to imitate the
fickle nature and create a
more harmonious flow

曲線設計有意模仿大自然的
變化多端，建立和諧線感

Park Layout Plan

A Park For Yau Ma Tei and You

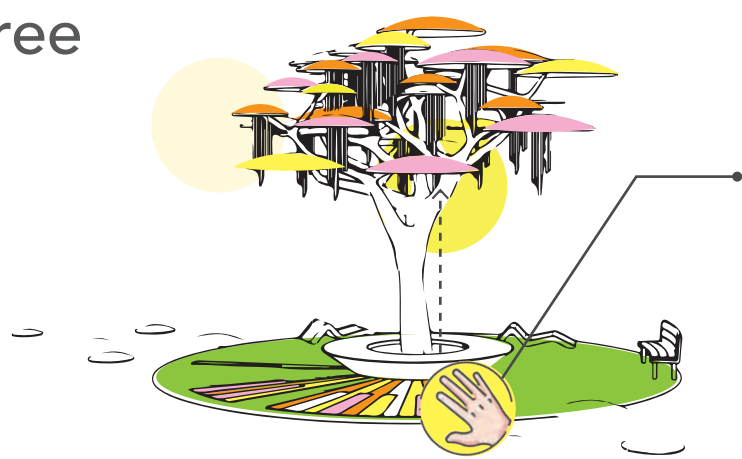

Park Feature - LifeTree

公園重點特色 - 榕樹

LifeTree involves everyone of YOU to enjoy under the shading. It provides a complete platform for intergeneration and inclusiveness.

榕樹能包容所有人, 任何人都可以於榕樹下乘涼遮光, 為跨代共融提供一個完整的平台。

Two Lighting Systems in LifeTree

兩種燈光設計系統

- (1) 2700K lighting, automatic when entering night
2700K 照明燈光, 入夜自動亮起
- (2) Colourful lighting, triggered by the visitors
彩色燈光, 用家按壓草地上的彩板

Keyboard-like Stepping Tiles

顏色按壓板塊

- interact with users 與用家互動
- trigger lightings and sound systems
觸發燈光及音樂系統

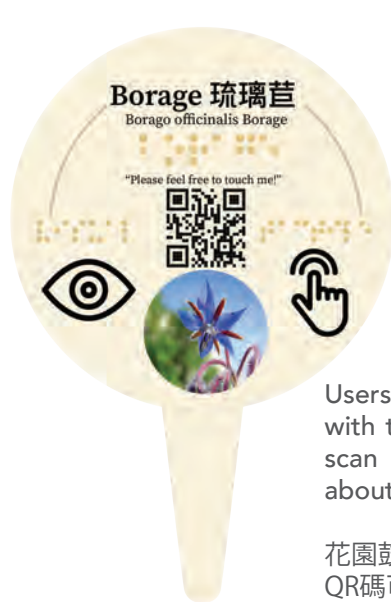

QR code on LIFETREE
- access stories of the local residents
- consolidate the community identity and cohesion

榕樹上的QR碼
- 了解關於居民及油麻地的人與事
- 加強社區認同與凝聚力

Sensory Gardens 感官花園

Sensory gardens offer a wide range of sensory stimulation, thus providing therapeutic and leisure elements to our park users. Altogether the sensory garden is able to provide holistic sensory opportunities (visual, auditory, olfaction and tactile) in a controlled manner.

感官花園提供一系列的感官體驗, 同時亦提供治療作用和休憩用途。官花園有別於其他設施, 它以溫和的方式提供全面的感官刺激。

Users are encouraged to interact with the plants, where they can also scan the QR code to know more about the plants

花園鼓勵用家與植物之間的互動, 透過QR碼可以認識更多相關資訊

Instead of increasing the amount of greenery, the sensory garden design hopes to change the relationships between plants and people by increasing contact and interaction.

比起增加植物的數量, 花園設計更重視植物與人的關係, 反而希望增加植物與人的接觸與互動。

Vestibular
前庭平衡覺

Tactile
觸覺

Auditory
聽覺

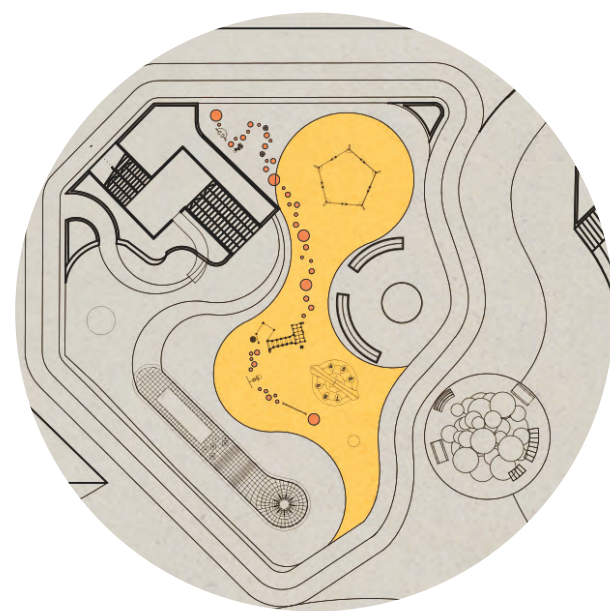

Visual
視覺

Olfactory
嗅覺

Proprioceptive
本體覺

Age-neutral

Exercise amateurs can follow along the path to complete a full set of body exercise

Children can follow the path for imaginative freeplay.

年齡中性

健身者可跟隨行徑完成一系列的運動練習

小童可跟隨行徑自由想像遊玩, 就像完成一項任務。

Play and Fitness Equipment 玩樂健身設施

The selection on play equipment emphasizes on providing multisensory and multiple types of play to promote body and mental wellbeing. The equipment provides freeplay. An audio-interactive game arch provides various games related to number, creativity, imagination, reaction, speed and fitness.

考慮玩樂設施的主要因素分別是多感官及多樣化, 希望設施有助身心發展, 同時達致「男女老少都啱用」。設施不設限制, 由用家自由發揮使用。例如, 公園裡的聲學互動裝置提供數字、創意、想像、反應、速度和體能等多項玩樂方法。
